X: Export approval granted for wild and cultivated ginseng harvested in State indicated.

—: Export not requested or not granted.

a: Export approval only for artificially propagated (cultivated) ginseng harvested in State indicated.

(2) Conditions on export: All plants and roots must be documented as to State of origin, season of collection, and dry or green (fresh) weight. The State must certify whether roots and plants originated in that State, are wild or cultivated (artificially propagated) specimens, and were legally obtained in a particular season. Such State certification, a current Federal export document, an executed dealer or exporter's invoice, and the ginseng must be presented upon export. All other export procedures must be followed as described by the Service in this rule. The State must maintain ginseng management and harvest programs, as described by the Service in this rule, and annual ginseng program data for the preceding harvest season should be available to the Office of Management Authority by May 31 of each year. Export procedures must be completed as outlined and discussed in this paragraph.

NOTE. American ginseng purchased from non-export approved States by State-registered ginseng dealers for domestic use and commerce must be reported to the State of registration, along with all other ginseng commerce. Such ginseng is not eligible for export from the United States and must be dealer-maintained physically separated from that ginseng eligible for export from this country so that there is no chance of intermingling the specimens.

+ Export approval.

— Export not approved.

E 1979–80 bobcat export enjoined by U.S. District Court, District of Columbia.

E(1) As above but for eastern portion of State.

E(2) As above but for high plains ecological area.

(b) *Condition on export:* Each pelt must be clearly identified as to species; State, Indian Tribe, or Indian Nation of origin; and season of taking by a permanently attached, serially numbered tag of a type approved by and attached under conditions established by the Service. Exception to tagging requirement: finished furs and fully manufactured fur products may only be exported from the United States when the State, Indian Tribe, or Indian Nation export tags, removed from the hides used to manufacture the product being exported, are surrendered to the Service at the time of export. Such

tags must be removed by cutting the tag strap on the female side next to the locking socket of the tag so the locking socket and locking tip remain joined.
